MINIX™ Mini HD PC

- The 2012 MINIX™ Mini HD PC is a low-power, energy efficient, easily affordable desktop computer. MINIX™ Mini HD PC is designed to accomplish daily computing tasks such as web browsing, watching HD movies, listening to favorite music titles and to share digital contents with friends through the Internet.
- Powered by the built-in high-definition (HD) video decoder, it is capable to perform full HD-decoding for MPEG2, VC1, AVC and H.264 videos. In addition, MINIX™ Mini HD PC is capable to support Blu-ray™ 2.0 movies. This PC comes with a D-Sub VGA port and a HDMI port, so dual display is capable when connecting to both video outputs.
- MINIX™ Mini HD PC provides two Broadcom Gigabit LAN ports so it could be utilized as a mini server and also it comes with the next-generation low-power Renesas USB 3.0 chip, providing 2 x USB 3.0 high-speed connections. Inside this mini PC there are space for a 2.5-inch hard drive and two 204-pin DDR3-1066 SODIMM slots, thus allowing different storage and memory configurations according to budget and needs.

- The specifications are subject to change without notice.
- Product is not warranted if the product is modified, altered or repaired without authorization by J&W Technology.
- All brand names and products are registered trademarks of their respective owners.
